

Golden's Rose House July

JULY 2018 - 13TH EDITION

The Glacier Rose Variety

"The air we breathe is precious, and the glaciers helped me understand that..."

- James Balong

For us, July is probably the most fun month of the season. Family vacations, weddings, cookouts and picnics are among the activities people engage in during the summer.

Use these opportunities to create summer bouquets with our "Glacier" rose variety.

Glacier is the right amount of white and it does not clash with any of your favorite summer colors. It actually let's these colors pop more!

Use it with hot pinks and oranges for a summer picnic or wedding and you won't be disappointed! This month we're all about a garden party theme and "Glacier" is the perfect rose for that!

Glacier Rose Variety: Fun and Fresh

Enjoy July with "Glacier", our fun and fresh white rose variety!
